Chemtrails by Charlie Poet 2/13/19

Not only are they spraying us at night while we sleep they do it in broad daylight, these people don't give a \$%#@#! The nerve of them to spray us like cockroaches without our consent as our children walk to school. For years they denied chemtrails

<https://www.sheila.media/?s=chemtrails> even existed, but we knew better. Now they are saying it's for our own good, to protect us from "global warming" or "climate change," as they currently call it. GeoEngineering <https://www.geoengineeringwatch.org/> is a disgrace and the evil

warlords love it. They gamble on the weather, yes, with money at the expense of human lives, a lot of it.

Native Americans prophesied about chemtrails a long time ago

and they are fighting to stop it today <https://youtu.be/VrE2AhYVUmA>.

Doesn't anyone look up anymore? We grew up staring at the stars, marvelling the sun, moon, and clouds. We always looked up, why wouldn't you? But in post 9/11 America it seems nobody looks up at all. I think we are ashamed. We all see the dragons blowing smoke high in the sky but don't know what to do about it. So we look down and play with our cell phones, it's sad. May God help us.

Arch-criminals control governments and militaries. They want us all un-dead, like them, actually dead, or mentally incapacitated, aka **ZOMBIES**. We can and must do better. Who is flying these planes? They are traitors and must be arrested now, or at least their names be made public, this is insanity and not one politician will mention it. We must demand they stop spraying us or be fired and imprisoned. It's up to us. As the girl says in the end of the video: "C'mon people!"
