Gross, No Deal by Charlie Poet 2/12/19

As much as I want to ignore this seemingly schizophrenic person's existence I suppose I have to acknowledge her considering her fake/real/fake \$40 Trillion "Green New Deal," that is fairytailing its way across our "interwebz" skies. Is she mind-controlled or what?

<https://www.sheila.media/?s=mind+control>

<https://www.sheila.media/huge-ocasio-cortez-caught-in-major-lie-claims-crazy-green-new-deal-document-from-her-own-website-is-fake/>

It's disturbing to say the least that a congresswoman would deny what was posted on her own website, and written by her own staff member, as explained in Sheila's link above, as now being fake. Excuse me? That's unacceptable. If the document is fake you have serious issues within your staff, or within your head, and most likely both, Alexandria. Check yourself now. Nobody needs you running things, believe me. We have enough wackos, clowns and witches who like to play "boss" in our congress. Something tells me the "suffragette" centennial was an excuse to wear white. Led Zeppelin sang we know sometimes words have two meanings, so do costumes, very different meanings. Are these ladies members of The Order of The Eastern Star?

<https://youtu.be/QZGgy8hWHjs> or any other number of secret witch covens and "organizations."

<https://www.sheila.media/?s=witches> they are everywhere now, "and it makes me wonder."

When I was growing up they scared the crap out of us about some hole in the sky above Antarctica, a place no one can visit, they said the “ozone layer” was tearing open and the world was going to end or something ridiculous like that, I can’t remember but read about it if you wish <https://www.smithsonianmag.com/science-nature/ozone-hole-was-super-scary-what-happened-it-180957775/>

The point is the government likes to scare us. They are charlatans, tricksters who rule with fear. They make up lies, they create “emergencies,” “catastrophes,” and “it’s the end of the world” scenarios that only they can fix. Then they create new laws and tax us for it, forever. As far as “AOC” and her “Green New Deal” goes; all I can say is whether it’s real/fake or real, it’s gross, no deal.
